

Ar Dr Tan Loke Mun

Profile

Ar Dr Tan Loke Mun is a prominent award winning Architect from Malaysia. Dr Tan obtained his architectural training from Deakin University and later his doctorate from the University of Melbourne

He is a member of the Board of Architects Malaysia (LAM), a past President of the Malaysian Institute of Architects (2005-2007) and was the Team Leader responsible for the setting up of the GBI green rating tool for Malaysia

Dr Tan is well regarded as a visionary innovator and a bit of a maverick. Often working from the basis of typologies, he has successfully interpreted and translated green regional metaphors into his architecture and masterplans

Ar Dr Tan Loke Mun is the founding Director of ArchiCentre Sdn. Bhd, DTLM Design Group and principal of DrTanLM Architect, an architectural design studio in [Subang Jaya, Malaysia](#). He is best known for having designed the first Green Building Index Platinum rated house in Malaysia, the [S11 House](#) and its subsequent iterations the Clay Roof House and the Fabric House.

With a career spanning more than 30 years, Dr Tan's works are widely published and his practice is amongst the most awarded in the region. Significant architectural awards include the ASEAN Energy Award 2013, Asia Pacific Design Awards for sustainability 2012 and 2013, Futurarc Green Leadership Award 2012, two REKA International Design Awards in 2018 and numerous Malaysian Institute of Architects (PAM) and Malaysian Institute of Interior Design (MIID) REKA Awards

He lectures widely on architecture, design and professional practice, and was Adjunct Professor at University Putra Malaysia 2012-2014 and University Tun Hussein Onn 2014-2015. He is currently Industry Advisor to Taylors University and Tunku Abdul Rahman University College

Major Contributions to Architecture

1. 1998-2000 Developed and introduced the Continuing Professional Development program (CPD) through PAM and later made mandatory through the Board of Architects, LAM. Malaysia became the first Asian country to implement mandatory 10 CPD points for the annual renewal of professional registration. First chairman of LAM CPD Committee from 2003-2007.
2. Chair of PAM Education Committee (1999-2001) that implemented the School Liaison meetings to bring all the Schools of Architecture together into one common meeting to address architectural education issues. Member of Council of Architectural Education (CAEM) from 1999-2001, 2003-2004.
3. President of Pertubuhan Akitek Malaysia (PAM) from 2005-07
4. Established ARCHIDEX for PAM with CIS Network Sdn. Bhd.
5. Launched the PAM Convention comprising ARCHIDEX Exhibition, KL Design Forum and DATUM. ARCHIDEX is now Malaysia's premier architectural and interior exhibition with some 33,000 visitors (2018). DATUM has grown tremendously and is recognised as the most successful International Design Conference in the region showing the works of emerging and upcoming architects with more than 2500 participants in 2010.
6. Developed and launched Architect Centre, a joint venture between PAM with RAIA's Archicentre Pty. Ltd. to provide building inspection services for the Malaysian building industry. The business has grown and currently provides an important and credible third party professional inspections service and opinion to the public.
7. Initiated the first Architectural Student Works Exhibition held annually at the One Utama Shopping Centre central boulevard. The week long exhibition has grown to be a major annual event in the architectural students' calendar.

8. Appointed by the Minister of Housing and Local Government in 2009-2010 to the Committee to investigate the Jaya Supermarket building collapse during demolition.
9. Led the PAM team that developed the Green Building Index (GBI) for Malaysia. GBI is recognised as Malaysia's green building rating tool and is specifically designed for the tropics. Worked with Government to offer incentives to promote green building and also preparation of legislation for a greener environment. Achieved the first GBI Platinum rated house in Malaysia. In the first year, there were more than 100 projects that had applied for GBI certification in Malaysia. GBI at its 10 years anniversary in 2019 celebrated more than 300 million square feet of property that has been certified green by GBI. Co-edited the Greening Malaysia book published under KLAF2019
10. Worked with EPIC Communities on self help housing and community initiatives in PJKita and also on Orang Asli housing. Initiated the international Architectural Competition for the Tropical House for Orang Asli through KLAF2019 to generate appropriate housing typologies for onward engagement with Government and the Orang Asli community.
11. In 2018 initiated and started BambooArk to reintroduce the planting, cultivation, processing, preservation, design and structural use of bamboo in Malaysia. This was featured in KLAF2019.
12. Director for Kuala Lumpur Architectural Festival 2019 with the theme TOMORROW to address future issues confronting the profession and society. This was tackled under four event headings – Shelter, Future Food, Art + Architecture and Archidex + DATUM.
13. In 2008, drafted the proposal and framework for the Deposition of Architects Fees with LAM as a Stakeholder as part of the solution to address the independence of the Architect as Certifier for the Certification for Completion and Compliance (CCC). Current chair of the committee to set up and implement the Stakeholder Management system in 2020.

14. Editor for several years and subsequently on the advisory board of Architecture Asia magazine from 2005 – 2019. Published the Tropical Malaysian House V.1 by Prof. Robert Powell and Lin Ho. Co-edited Greening Malaysia and Co-wrote and edited Recent Malaysian Architecture V.2 and the KLAF2019 Logbook.
15. Participant at two Venice Biennales 2010 with “Green Tower” and 2012 with “Air-Craft”. Team Leader and Co-curator for Venice Biennale 2014. Exhibited “T-Colony”

Overseas and others

1. 1987-92 Developed the Group Self Build Housing program for the State Government of Victoria, Australia as part of his PhD at Melbourne University. The housing program enables low income families caught in the deposit gap to utilize their own skills and time (sweat equity) to contribute towards building their own homes. The program, training and financing model was designed, implemented and launched in 1989 and continued to operate for many year. It was the longest running new build public housing program that was offered by the State Government of Victoria, Australia until 2016.
See <http://www.housing.vic.gov.au/home-owners-assistance/group-self-build>.
2. 1991-92 worked in Uruguay and Argentina on Self Help Housing projects as part of the Victorian-Mercosur technology transfer for Group Self Build.
3. 1992 Returned to Malaysia and worked in BEP Akitek under the late Dato' Kington Loo.
4. Started ArchiCentre Sdn. Bhd. in 1994 and continues to be the Design Director for most of the projects that the company undertakes. The firm has won numerous architectural awards. Started sole proprietorship DrTanLM Architect in 2012 and Multi-Disciplinary Practice DTLM Design Group Sdn. Bhd. in 2013

Significant building projects:- The Wave (Bali, Indonesia), Armanee Condos, Armanee Terrace 1 and 2, Duta Tropika, Setia Hills, Setia Eco Tower, Canopy Clubhouse, Flora Murni, Matahari Commercial, PJX Tower, Carat Club, SP Setia

Corporate HQ, SetiaCity Convention Centre 1 and 2, SetiaCity Mall 1 and 2, 55 AC Office, SS3 Courtyard and Roof House, Sec 7 Courtyard House, Leong House, No 9 Pavilion House, Chang House, Sec 12 House, S11 House, 23 Terrace, 8D Verandah House, Fabric House, Clay Roof House, Nomaps, Sunway Rahman Putra, Setia Ecopark (various phases), Setia Ecogrades (Various Phases), Eco Majestic (various phases), Eco Forest (various phases), Almas, Aeropod etc

Significant Master planning works - Ecolakes @ My Phuoc (Ho Chi Minh, Vietnam), Hanoi Parkcity (Hanoi), Saigon Ecocity, Eco Forest, Irian Bayu, SetiaCity, Marina Park City, Eco Majestic City, Cyberjaya City Centre, Setia Tanjung Kupang, etc

Biography (Source: Wikipedia https://en.wikipedia.org/wiki/Tan_Loke_Mun)

Born and raised in [Petaling Jaya, Malaysia](#), Tan Loke Mun obtained his architectural training from [Deakin University, Australia](#) in the 1980's and later received his doctorate from [The University of Melbourne, Australia](#). His doctoral studies was in social and self-help housing and he has worked in many urban and rural parts of [Australia](#), [Uruguay](#), [Argentina](#) and [Brazil](#).

His interests are wide and varied just as are the commissions that ArchiCentre Sdn. Bhd has undertaken. From home renovations and interior designs, green houses to new shopping retail malls, convention centres, corporate offices and master-planning of neighborhoods, cities and townships. He founded ArchiCentre in 1994 and it has grown to become an innovator and design leader in architecture. Tan Loke Mun continues to be the key driving force for the practice that now has offices and projects around the South East Asia region.

He is a Past President of the Malaysian Institute of Architects (PAM), Past Chairman of the LAM-PAM Green Building and Sustainability Committee, Past Member of the GBI Accreditation Panel (GBIAP) and also a member of the Board of Architects Malaysia.

The [S11 House](#) is Malaysia's first Green Building Index Platinum rated work of domestic architecture. It won the Tropical Building Category of the Asean Energy Awards in 2013 by ArchiCentre Sdn. Bhd and while not the firm's largest project, it has been one of the firm's biggest ideological successes.

Life and career

Ar. Dr. Tan Loke Mun, is the founding Director of ArchiCentre Sdn. Bhd. The practice was formed in 1994 and has grown to become an innovator and design leader in the field of architecture. Loke Mun continues to be the key driving force for the practice that now has offices and projects around the region.

Social crafting

His interests are wide and varied just as the commissions that ArchiCentre has undertaken are equally diverse. From small alterations and additions, green houses through to new shopping retail malls, convention centres, corporate offices through to master-planning neighbourhoods, cities and townships. Whilst ArchiCentre's works are often said to be clearly recognisable, there is no clear distinctive style of expression or materiality. There is however a common thread of contextualisation, social crafting and craftsmanship in their works. The patterns of their early works were sometimes derivatives of time tested typologies often imploded or expanded for new modern day uses. A common thread throughout their work is the search for innovative expressions to enhance the sanctity of the golden rules of regionality, climate and culture. The practice seems to be driven by an almost unquenchable quest for modernity and innovative solutions for age-old needs.

The art of building

The School of Architecture at Deakin University in the 1980's was the training and feeding ground for an architecture that was buildable yet socially and environmentally responsible. A turning point came through the appreciation of the values of modern architecture that reinforced the notion that great innovations and ideas are closely related to the abilities and technologies of the age. With this enlightenment the last two years in Deakin were characterised by design adventures that stretched beyond size, scale and location. Professor Nick Beattie who later became the head of school supervised his final dissertation. The thesis "The Princess Gate Transport Museum" won him the inaugural Vice Chancellor's Prize and also the RAIA Arthur Collins Award in 1987. His first project as a designer upon graduation was in collaboration with the populist Geelong permaculture cooperative architect and activist Peter Lockyer on a city hotel for a Vietnamese restaurant owner client. They worked together in Lockyer's home office in the centre of Geelong City. Lunch was simply plucked from Lockyer's garden and lightly tossed over the stove. Lockyer was a living testimony to his advocacy that permaculture was the way communities could prosper whilst living in harmony with the earth.

To do for one-self what one is able

Armed with some level of skill coupled with an insane desire to pursue a more excellent built future Loke Mun pursued post graduate architectural studies in Melbourne University's School of Architecture and Building. There under the tutelage of Professor Allan Rodger and economist- planner Dennis Ingemann from the Victoria Ministry of Housing and Construction, he developed and launched the Group Self Build Housing scheme for low income families seeking home ownership. His dissertation work involved setting up a new Government enabling scheme that was based on people participation in design and construction transforming into sweat equity value. In the course of the research, he worked with John F.C and Bertha Turner who were the foremost proponents of self help enabling strategies for housing. This involvement in social housing left an indelible mark as to the basic need for shelter and the importance to do for one-self what one is able to do. Whilst developing the new program Loke Mun worked first as a consultant and then later as the Team Leader at the Ministry of Housing and Construction's Special Housing Branch. During the same time he obtained his professional Architects registration and also obtained his Builder's License. The framework of the new housing program was also exported through technology transfer to Uruguay in the early 1990's. The development of Group Self Build Housing in Victoria earned him his doctorate in Architecture in 1992. Professor Rodger continues to be a strong ally and advisor on sustainability and green building and they teamed up again in 2008/09 to develop the GreenBuildingIndex for Malaysia.

Maverick forever

Upon returning to Malaysia in early 1992 Loke Mun worked in BEP Akitek under the late Dato' Kington Loo. Ever the maverick, Dr Tan left BEP Akitek to heed the call to move on and find his own architectural expressions. ArchiCentre Sdn. Bhd was founded in 1994 by Ar Dr Tan Loke Mun and Ar Lim Wei Hong. Loke Mun's architecture embraces and interprets regionalism in a modern social context. In a rapidly changing world landscape, he believes that well designed buildings and spaces can create value for all its users. As such he seeks to find the balance between modern standardization and the subliminally crafted detail that can create the requisite emotional experience for his projects.

Mod-Trop and more

The early experiences with self help housing and social architecture is evident in the strong emphasis on buildability, economic realism and craftsmanship. There is no specific evident style or formulaic solution. Each commission is site and brief dependent. He has worked comfortably with the whole plethora of materials and systems. Buildability and simplicity is achieved through a good grasp of materials and available technologies. Issues of climate and locality are addressed through a keen desire to work with the land rather than to go against the laws of nature. The modernization of tried and tested typologies led to the Mod-Trop (Modern Tropical) period in his works. A successful example of this is the exclusive and highly regarded Duta Tropika (2005) housing development in the outskirts of Kuala Lumpur. Here he took the tropical resort villa typology and translated it into modern terrace homes. A wider 26 feet frontage was used to “open up a host of planning opportunities” and the villa master bedroom with outdoor bathroom on an entire floor helped define the garden resort feel of the homes. The Mod-Trop period culminated and is most evident in SetiaHills (2008) where the villa or pavilion concept with accompanying pool was translated into a housing development set on a hillock. Setia Hills would form the apex of his experimentation into the Mod-Trop approach and he has not returned to this period of works again. Sizes of projects grew in tandem with growth in the size of the practice. Master planning became an integral part of his interests as he began to work on eco cities (SetiaCity, KL EcoCity, Aeropod, Cyberjaya City Centre) and eco townships (Ecolakes HCMC, Hanoi Parkcity) both in Malaysia and abroad. A fundamental key to his master planning concepts were the need to create sustainable and sufficient neighbourhoods, towns and cities. The key was to find the “sweet spot” when the three key elements of building a great environment, coupled with bringing a community to live and work there and support the businesses to prosper the place. Added to these are the importance of nodes, landmarks, paths, linkages and edges.

Building a strong green foundation

In 2008/09 Loke Mun lead the team of professional and academic volunteers under the Pertubuhan Arkitek to set up Malaysia’s own green building rating tool known as

the GreenBuildingIndex or GBI. The rating tool was officially launched on 21 st May 2009 and has since then changed the way cities and buildings are designed and constructed. It raised the awareness that we could no longer take the world and its resources for granted. Architecture and building had to change. Loke Mun's leadership in the development of GBI was in some sense the culmination of his belief that something drastic had to be done for the environment and the rating tool would provide the template and recipe to guide would-be developers and builders and end-users to do the right thing. When asked if the "green" movement would be just another fad or style, his response would be that it is the "right thing to do". An underlying DNA thread through his architecture is the constant drive to innovate and experiment with the available technologies to make his buildings sustainable and stand the test of time. This can be seen in the "radiator sunscreen" that was applied to encapsulate his office in Subang Jaya (AC55) and again in his studio gallery at No.19. Increasingly his buildings have become akin to "machines for living in" as they are now required to provide more than shelter. The multi award winning S11 House achieved GBI Platinum certification and is a testament to the opportunities available to build green. This has since been replicated in the S14 House and other commissions of private homes. The constant experiments done on these private homes eventually find their way into the larger consumer and mass market projects that the office undertakes. This has been his process of taking a theory and testing it on a lab project (usually a house) and then finding a larger mass market application for the idea.

Social service and making a difference

Loke Mun has been an active member and contributor to the Malaysian architectural profession from his early days. The late Dato' Kington Loo invited him to serve on several working committees of the Institute and this expanded to more and more areas through the years. He contributed particularly in the area of architectural education, information technology, heritage and conservation, government legislations, awards and competitions. He was also the key person who introduced the Continuing Professional Development (CPD) program for the profession making it the first mandatory CPD program to be implemented in the Asian region. He was also editor of the regional ARCASIA journal Architecture Asia for several years.

Service to the profession culminated with the Presidency of the Malaysian Institute of Architects (PAM) from 2005 – 2007. During that time he put together and launched the highly successful PAM Convention that brought ARCHIDEX and DATUM together.

He has also published books on architecture and design the latest being The Tropical Malaysian House V.1 by Prof. Robert Powell and Lin Ho. He co-edited Greening Malaysia and co-wrote Recent Malaysian Architecture V.2 and the KLAF2019 Logbook.

He was the Kuala Lumpur Architectural Festival director for 2019 (KLAF2019).

Curriculum Vitae

Ar. Dr. Tan Loke Mun

B.A(Arch), B Arch(Hons), PhD(Melb), FPAM, AIA (Hon), ASA (Hon), FMIID, MMIArbs
Director, ArchiCentre Sdn. Bhd
Principal, DrTanLM Architect
Director, DTLM Design Group Sdn. Bhd.
Past President, Pertubuhan Akitek Malaysia (PAM) (2005 - 2007)
Board Member, Board of Architects Malaysia (LAM) (2003 – Current)
Past Board Member, Board of Engineers Malaysia (BEM) (2013 – 2016)
Adjunct Professor, University Tun Hussein Onn Malaysia (2014 - 2015)
Adjunct Professor, Universiti Putra Malaysia (2012 –2014)
Industry Advisory Panel, Taylors University (current)
Industry Expert Advisory Panel (IEAP), Tunku Abdul Rahman University College (2013 – current)
Fellow Member, Pertubuhan Akitek Malaysia (PAM)
Fellow Member, Pertubuhan Perekabentuk Dalaman Malaysia (MIID)

Date of Birth: 19th November 1965

Place of Birth: Petaling Jaya, Selangor, Malaysia

Education

Bachelor of Arts (Architecture) – 1983-85, Deakin University, Australia
Bachelor of Architecture (1st Class Honours) – 1986-87, Deakin University, Australia
Awarded the Royal Australian Institute of Architects' Arthur Collins Award 1988
Awarded the Vice Chancellors' Prize 1988
PhD in Architecture – 1988-91, Melbourne University, Australia – Topic: The Development of Group Self Build Housing in Victoria, Australia.
Awarded Melbourne University Post Graduate Scholarship 1988, 1989, 1990, 1991;
Awarded Commonwealth Government of Australia Scholarship 1988, 1989, 1990, 1991

Career

1987 – Denton Corker Marshall, Assistant Architect
1987-1988 – Commonwealth Department of Construction Services, Architect
1988-1989 – Professional Consultant to Ministry of Housing, Victoria
1990 – Ministry of Planning and Housing, Victoria, Team Leader for Housing Standards/Special Housing
1990 – Registered Architect in Victoria, Australia
1990 – Registered Builder in Australia
1990-1992 – Property development in Victoria, Australia
1991-1992 – Consultant for Ministry of Planning and Housing, Victoria working in Uruguay, Brazil and Argentina
1992-1993 – BEP Akitek, Project Architect working on Hotel projects – KL Renaissance & New World Hotel
1994 – Registered Architect in Malaysia
1994 – Founder Director of ArchiCentre Sdn. Bhd.
2007 – Registered Architect and Engineer in Vietnam
2007 – Registered Interior Designer in Malaysia
2012 – DrTanLM Architect
2013 – Founder Director of DTLM Design Group Sdn. Bhd.

Professional Service

Adjunct Professor of Architecture, University Putra Malaysia (2012 - 2014)
Adjunct Professor, Department of Building Management, University Tun Hussein Onn Malaysia (2014 - 2015)
Panel Member, Green Building Index Accreditation Panel (2009 - 2014)
Council Member of Pertubuhan Akitek Malaysia (PAM) (1997 - 2011)
President, Pertubuhan Akitek Malaysia (PAM) (2005 - 2007)
Immediate Past President, Pertubuhan Akitek Malaysia (PAM) (2007 - 2009)

Deputy President, Pertubuhan Arkitek Malaysia (PAM) (2004 - 2005)
Vice President, Pertubuhan Arkitek Malaysia (PAM) (2003 - 2004)
Hon. Secretary, Pertubuhan Arkitek Malaysia (PAM) (2001 - 2003)
Board Member of Lembaga Arkitek Malaysia (LAM) (2003 - current)
Member, Council of Architectural Education Malaysia (CAEM) (1999 - 2001, 2003 - 2004)
Committee Chairman, Continuing Professional Development (CPD - LAM) (2003 - 2007)
Hon. Secretary, Architects Regional Council of Asia (ARCASIA) (1998 - 2000)
Council Member, Malaysian Institute of Arbitrators (MiArbs) (1998 - 2004)
Hon. Treasurer, Malaysian Institute of Arbitrators (MiArbs) (2000 - 2004)
Disciplinary Committee Member, BAR Council (2008 - current)
Council Member, Malaysian Institute of Interior Designers (IPDM) (2005 - 2010)
Hon. Treasurer, Malaysian Institute of Interior Designers (IPDM) (2006 - 2008)
Chairman, LAM PAM Sustainability Committee (2009 - 2011)
Board Member, Malaysian Green Building Confederation, (MGBC) (2010 - 2011)
Pro-Tem, Hon. Treasurer, Pertubuhan Perekabentuk Dalamann Malaysia (MIID) (2011-2012)
Council Member, Pertubuhan Perekabentuk Dalamann Malaysia (MIID) (2012 – 2014)
Honorary Member, Australian Institute of Architects (AIA) (2006)
Honorary Member, Association of Siamese Architects (ASA) (2009)
Asia Pacific Representative of the World Green Building Council (WGBC) (2009 - 2012)
Board Member, Board of Engineers Malaysia (BEM) (2013/2014) (2014 - 2016)
Planning Advisory Board Member to the Minister of Federal Territories, Malaysia (2007-09)
Fellow Member, Pertubuhan Arkitek Malaysia (PAM) (2015 - current)
Fellow Member, Pertubuhan Perekabentuk Dalamann Malaysia (MIID) (2016 – current)

Exhibitions

2010, Aug – Nov, The Green Tower – Remixed, Venice Biennale Architettura 2010, Venice, Italy
2012, Aug – Oct, PAX2012, Putra Architectural Exhibition, Galeri Serdang, University Putra Malaysia, Kuala Lumpur
2012, Aug – Nov, Air Craft – Malaysian Voices, Venice Biennale Architettura 2012, Common Ground, Venice, Italy
2013, March, Air Craft – Malaysian Voices, Venice Biennale 2013 Malaysia Pavilion, University Putra Malaysia
2013, 26-28 April, Architecture For All, Werdhapura Village, Sanur-Bali, Indonesia
2013, 19-22 June, KLAF 2013 – PAM Model Exhibition “Ineffable Space”, Kuala Lumpur Convention Centre, Kuala Lumpur, Malaysia
2013, 22-27 Oct, [KIA] 100 Architects of the Year 2013, Dongdaemun History and Culture Park, Seoul, Korea
2014, 1-4 May, PAM-HOMEDEC Awards for Residential Renovation, Gold Recipient, ArchiCentre Sdn Bhd - A Solo Exhibition, Kuala Lumpur Convention Centre, Kuala Lumpur, Malaysia
2014, 1-4 May, Exhibition Preview of Sufficiency – 14th International Architecture Exhibition, Venice Biennale 2014 - Malaysia Pavilion, Kuala Lumpur Convention Centre, Kuala Lumpur, Malaysia
2014, June – Nov, The T-Colony – Sufficiency, Venice Biennale Architettura 2014, Venice, Italy
2014, 5-9 Nov, [KIA] 100 Architects of the Year 2014, GwangJu Asian Culture Complex, Seoul, Korea
2015, January, The T-Colony – Sufficiency, VB2014 Returning Exhibition at Taylors University Gallery, Petaling Jaya
2015, 12-15 Aug, KLAF 2015 – PAM Model Exhibition “Eccentric Spaces Or Details” at Kuala Lumpur Convention Centre, Kuala Lumpur, Malaysia
2015, 21-25 Oct, [KIA] 100 Architects of the Year 2015, Culture Station Seoul 284, Seoul, Korea
2016, 25-30 July, KLAF 2016 – PAM Architectural Exhibition “Future Communities” at PAM Center, Jalan Tanduk, Bangsar, Kuala Lumpur, Malaysia (in conjunction with KLAF 2016 and soft launch of new PAM Center Jln Tanduk)
2017, 12-28 July, KLAF 2017 – TEN Buildings Exhibition at The Boulevard, Level G2, Publika, Kuala Lumpur
2018, Aug – Sep, KLAF 2018 – The Malaysian Future Housing Case Study, Damansara City Mall, Kuala Lumpur
2019, May – July, KLAF 2019 – Recent Malaysian Architecture Exhibition at The National Art Gallery, Kuala Lumpur

2019, May – July KLAFF 2019 – Unsung Heroes at Galeri Petronas, Suria KLCC, Kuala Lumpur

2019, 2-26 Sep, [KIA] 100 Architects of the Year 2019, Culture Station Seoul 284, Seoul, Korea

Talks and Presentations

- 2012, 24 Oct. Moderator, Capacity Building: Reforms of Development Process in the Construction Industry, Tun Hussein Onn Hall, Putra World Trade Centre, Kuala Lumpur, Malaysia.
- 2012, 9 Nov. Speaker, A Better Tomorrow: The Green Metamorphosis, Sustainability TechnoForum, SMX Convention Centre, SM Mall of Asia, Philippines.
- 2012, 27 Nov. Speaker, A Better Tomorrow: The Green Metamorphosis, SusTED'12 Climate Change: Solutions By Design, FRSB Lecture Hall, FRSB, University Putra Malaysia.
- 2012, 1 December, Speaker, A Better Tomorrow: How do we house Billions, PAM Professional Practice Forum 2012, Plenary Hall, KL Convention Centre
- 2013, 18 & 19 Jan, Moderator and Session Chair, Iskandar Malaysia Green City Conference, Danga Bay Convention Centre, Johor Bahru, Malaysia
- 2013, 23 January, Speaker, S11 House, Green Seminar 2013 by RISM, Hotel Istana, Kuala Lumpur, Malaysia
- 2013, 4 March, Voices - 13th International Architecture Exhibition - Venice Biennale 2012 Malaysia Pavilion, University Putra Malaysia
- 2013, 25 March, Speaker, A Better Tomorrow – A Guide to Green Housing Projects in Malaysia, 3rd Construction Industry Research Achievement International Conference (3rd CIRAIC 2013), Seri Pacific Hotel, Kuala Lumpur
- 2013, 27 March, Convener, Green Distinctions, ECO-B Green Forum 2013, Plenary Hall, KL Convention Centre
- 2013, 31 May, Expert Panelist, Asian Countries' Practice for Green Development organized by ICAPP, Shaanxi Great Hall, Xi'an, China
- 2013, 4 June, Speaker, A Better Tomorrow – The Future of Cities, International Construction Conference 2013 – Advancing Engineering & Technology for Project Excellence by The Chartered Institute of Building Malaysia, Sunway Putra Hotel, Kuala Lumpur, Malaysia
- 2013, 20 June, Speaker, A Better Tomorrow – The Future of Cities, 2013 The Fourth Tropical and Subtropical Green Building Council Alliance Conference and The West Side of the Straits Green Building Forum by Fujian Academy of Green Research / China Green Building Council / Singapore Green Building Council, Fuzhou, China
- 2013, 27 June, MIID Dulux REKA Session 3, Speaker, Interior Design: A Better Tomorrow: The Future of Us, MIID Secretariat, Solaris Dutamas
- 2013, 21 September, PAM Seminar 2013, Speaker, A Better Tomorrow: The Future of Cities, PAM Centre, Kuala Lumpur, Malaysia
- 2013, 7 December, PAM CPD Seminar 2013, Speaker, A Better Tomorrow: The Future of Cities, PAM Northern Chapter, Penang, Malaysia
- 2014, 25 March, National Town Planning & Regulatory Updates Seminar 2014 by the Malaysian Institute of Corporate Governance, A Sufficient Tomorrow, Istana Hotel, Kuala Lumpur, Malaysia
- 2014, 14 May, Seminar: Resource Efficiency – Owners' Dream or Nightmare? By Building Management Association of Malaysia, Wisma REHDA, Petaling Jaya, Malaysia
- 2014, 17 Sept, Challenges of Global Mega Projects: Sustainability – Building A Better Tomorrow, Speaker, A Sufficient Tomorrow, Dewan Tun Hussein Onn, Putra World Trade Centre, Kuala Lumpur, Malaysia
- 2014, 21 October, The Godfather of Property Forum Series: Mr Lee Liam Chye, Speaker, The ParkCity Club, Desa ParkCity, Kuala Lumpur, Malaysia
- 2014, 28 October, The SABD Lecture Series – Designing A Future, Speaker, The School of Architecture, Building and Design at Taylor's University, Selangor, Malaysia
- 2014, 29 October, Implementation of Green Building and Sustainable Development – Current Issues and Challenges, Speaker (Adjunct Professor), Building Management Department, Universiti Tun Hussein Onn Malaysia, Batu Pahat, Johor

2015, 7 February,	Panelist, Liberalisation And The Future Of The Profession, PAM Professional Practice Forum 6.0, Grand Ballroom, Grand Seasons Hotel, Kuala Lumpur, Malaysia
2015, 20 April,	Green Building Industry Talk and Architectural Design – Speaker (Adjunct Professor), Department of Construction Management, Universiti Tun Hussein Onn Malaysia, Batu Pahat, Johor
2015, 13 August,	Green Building Forum 2015, Speaker, Plenary Hall, Kuala Lumpur Convention Centre, Malaysia
2015, 17 August,	LAM – President’s Medal 2015, Jury Member, Hilton Kuala Lumpur, Sentral, Malaysia
2015, 19 Sept,	PAM CPD Seminar 2015 - “A Better Tomorrow: The Future of Cities 2”, Speaker, PAM Sarawak Chapter, Kuching, Sarawak, Malaysia.
2015, 12 Nov,	18 th Arcasia Forum 2015 – “How To Develop An International Practice”, Speaker, Classic Kameo Hotel, Ayutthaya, Thailand.
2016, 5 March,	International Urban Sustainability & Green Building Conference 2016 (IUS & GBC) – “Eco-systems And Immortality”, Speaker, Kuala Lumpur Convention Centre, Malaysia.
2016, 9 March,	REHDA Youth Green Tour to SP Setia Corporate HQ, Speaker, SP Setia Corporate HQ, Setia Alam, Malaysia.
